

The UK's leading experts in end-of-line automation

Technipes is a family-owned company, starting out in 1988, it has evolved into a dynamic and agile organisation, driven by a shared commitment to redefine industry standards through cutting-edge technology. The Barosi family still owns and manages this growing and successful machine manufacturer.

Working with industries from mills, food production, agricultural products, animal feed, chemical and building materials, Technipes has wide manufacturing industry experience.

The Technipes range

The Technipes range of machines includes:

- ⚙ Weighers
- ⚙ Valve packers
- ⚙ Open mouth bag packers
- ⚙ Form fill and seal
- ⚙ Gig bag packers
- ⚙ Palletisers
- ⚙ Conveyors

Open mouth and valve bag filling machine

Fully automatic bagging lines provide efficient filling of pre-made pillow type open mouth and valve bags at high speed. The Futura range of sack fillers from Technipes can handle pre-made bags of 10 – 50kg and fill up to 600 bags per hour, with easy flowing product and automatic bag changeover. Single and double spout options available.
